

# Kinship Care Services

At Cafs, we understand that navigating your role as a Kinship Carer can be challenging. Whether you are a grandparent who finds themselves, once again, caring for a young child or a family member who suddenly has another person to support, you do not have to face this situation alone.

When you need advice on how to navigate a behavioural issue or would like to connect with other Kinship Carers in the community Cafs is available to support you every step of the way.

Cafs provides regular opportunities for you to meet with and talk to other carers, including monthly support group meetings in Ararat, Bacchus Marsh, Daylesford and Ballarat. We also manage a Cafs Carers Facebook group, send regular e-news updates and run exciting events for families throughout the year.
